

Challenging Apheresis Procedures for Neuroimmune Disorders and Hematopoietic Cell Gene Therapy

The European Society for Hemapheresis, in collaboration with Terumo Blood and Cell Technologies, invites you to join us for an enlightening webinar focused on the latest innovations in apheresis.

Thursday June 6 | 3 pm CET

[Register](#)

In this session, two international experts will discuss approaches to apheresis, emphasizing new drugs and plasma exchange for managing neuroimmune disorders. They will also explore how apheresis collections are customized to support hematopoietic stem cell gene therapies.

What to Expect

- **Innovative Discussions:** Learn about developments in apheresis and how they impact the treatment of neuroimmune disorders. Discover the latest trends in plasma exchange and the role of new drugs.
- **Expert Perspectives:** Hear from our esteemed speakers, Dr. Eugenia Martinez Hernandez and Prof. John Manis, who bring a wealth of experience in neuroimmunology and hematology, respectively. Their insights will provide a deeper understanding of the evolving field of apheresis.
- **Engagement Opportunities:** Our moderator, Dr. Gerda Leitner, will facilitate a Q&A session, allowing you to engage with our experts and gain further insights.

Meet The Speakers

Prof. John P Manis
Boston Children's Hospital

Dr. Eugenia Martinez Hernandez
Hospital Clinic Barcelona

Prof. Gerda C. Leitner
President elect of the ESFH
